

Bates PPW Striker

Polywoven dunnage bag

Prevent cargo damage

With 40 years experience we know how to protect your goods in trucks, containers, ships and rail wagons.

Reliable performance

Strong quality materials. Made from woven polypropylene with a high mechanical resistance. High quality inner film ensuring ultimate airtight seal.

Time & cost saving

Quick and safe installation. Clean and cost effective. Fast loading for shipper. Fast unloading for receiver.

Fast & simple inflation

Operator friendly inflation using compressed air or portable battery inflator. Unique valve system. Seals automatically after inflation.

Bates PPW Striker Polywoven dunnage bag

PPW Striker is a new generation of Bates Cargo-Pak polywoven airbags, equipped with the patented Striker valve based on venturi technology. This allows for very simple and fast inflation of the airbag. PPW Striker is available in eight sizes and can be used in all climatic conditions.

Benefits and features

- **Maximizes load security**
Filling the void by inflating the airbag, secures the goods during transport all the way from the sender to the receiver. Clean, simple and easy to use.
- **Reduces loading and unloading time**
Placing the airbags is a very fast and time saving way of securing your goods before departure. For unloading the goods the airbags are simply deflated by puncturing the airbag or by pushing down the inner valve.
- **Environmentally friendly materials**
Entirely made from environmentally friendly materials. High wet strength due to the choice of materials and composition.
